Career Objective

Seeking an opportunity to begin my career in the technology industry where I can apply my knowledge of software development, web technologies, Machine Learning, and problem-solving skills to build innovative solutions while continuously learning and growing in a dynamic environment.

Education

B.E. Computer Science Engineering, PMC Tech, Hosur 2022–Present
CGPA: 8.0

HSC, GGHS, Bagalur 2020–2022
75%

SSLC, GGHS, Bagalur 2019–2020
77%

Technical Skills

Languages: Python, HTML5, CSS, JavaScript

Tools/Frameworks: Flask, Image Annotation Tool (Roboflow)

Domains: Full Stack Development, Machine Learning, Computer Vision

Projects

AI-Assisted Python Code Quality and Bug Analysis Platform
Python, Machine Learning, Flask, XGBoost, Software Analytics

Designed and developed an AI-driven platform for Python code quality assessment and bug risk prediction using static analysis and machine learning techniques. Extracted software metrics such as Halstead Metrics, Cyclomatic Complexity, and Maintainability Index to identify potential defects and improve code reliability. Built an interactive web application for real-time code analysis, bug prediction, and automated quality reporting.

Enhanced Haar Cascades for Face Detection
Python, OpenCV, Computer Vision

Designed and implemented a Haar Cascade classifier-based object detection system for grayscale images. Tuned detection parameters to reduce false positives and improve accuracy under varied lighting conditions. Explored real-time deep learning integration (CNNs/YOLO).

Detection of Diabetic Retinopathy
Python, Deep Learning, Machine Learning

Designed CNN-based diabetic retinopathy detection system using retinal fundus images. Performed image preprocessing, normalization, and augmentation to enhance feature extraction on a larger dataset. Tuned model parameters to reduce misclassification across five DR stages. Integrated the model into a Flask web interface for real-time image upload and prediction.

Internships

Full Stack Intern, Doosan Bobcat Pvt Ltd, Chennai Jun 2025–Jul 2025
Built a movie booking website using HTML, CSS, and JavaScript. Gained experience in frontend development, UI design, and interactive feature implementation.

Trainee, TVS Motors, Hosur Feb 2024
Gained practical exposure to IoT and automation tools in the automobile sector. Observed technology integration in production lines, and learned about corporate processes and team structures.

Certifications & Achievements

- **AWS Academy Graduate** – Cloud Architecting
- **Certified** – CS50P: Harvard's Introduction to Programming with Python
- **Certified** – IBM Digital Badge in Data Science — IBM Skills Build / Credly
- **Certified** – Data Visualization: Empowering Business with Effective Insights — Tata Forage

Languages Known

- Kannada
- Tamil
- English
- Telugu

Professional Skills

- time prioritization
- Cross-functional Collaboration
- Learning Agility
- Research Orientation
